**90 minutes
per session**

PRICE

\$ 185 / session

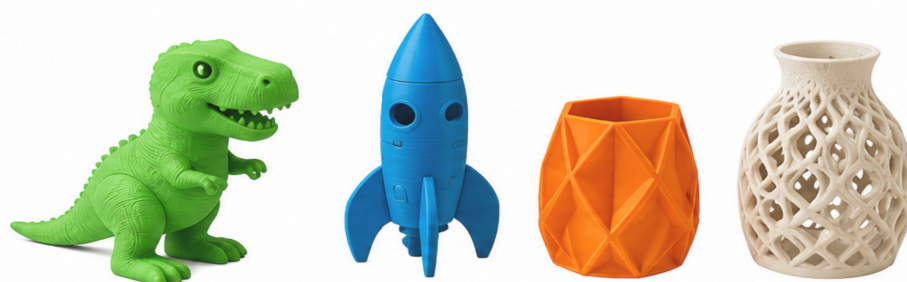

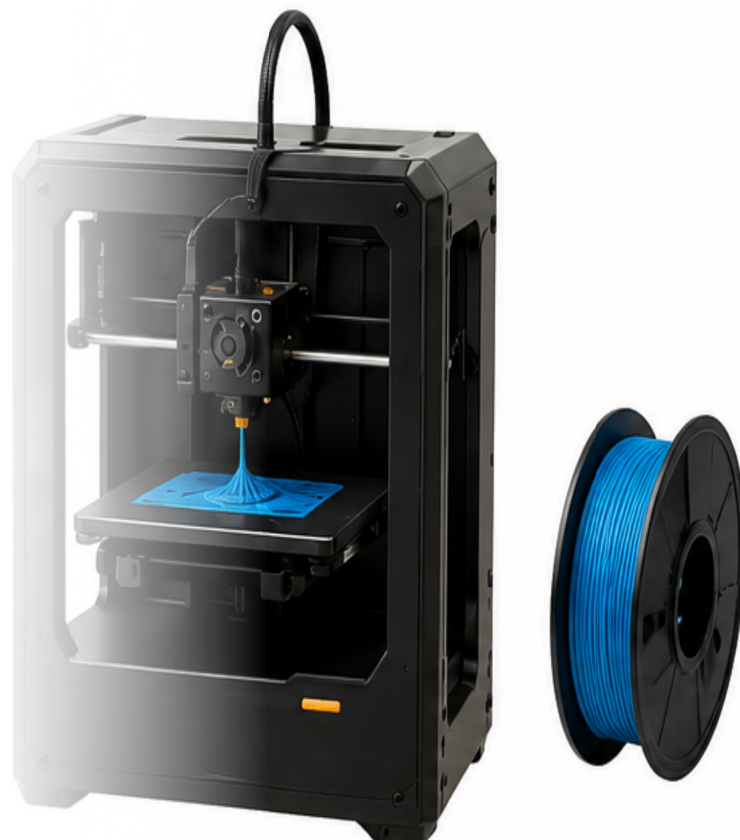

3D PRINTING

Imagine. Design. Print.

Explore the exciting world of 3D printing! Students will design, slice, and print their own creations.

- ✓ 3D Design Basics
- ✓ Printing Process
- ✓ Creative Projects
- ✓ STEM Skills

DURATION

**60 minutes
per session**

PRICE

\$ 130 / session

ROBOTICS

Build. Code. Innovate.

Build amazing robots and
bring them to life with coding!

- ✓ **Robotics & Coding**
- ✓ **Problem Solving**
- ✓ **Team Challenges**

DURATION

**60 minutes
per session**

PRICE

\$ 130 / session

LEGO BUILDING

Build. Create. Innovate.

This hands-on course explores foundational engineering and architectural concepts using Lego components. Through small group & interactive instruction, step-by-step drafting, and guided structural challenges, participants collaborate in small teams to solve structural problems and apply spatial problem-solving to complete real-world design projects.

- ✓ **LEGO Building**
- ✓ **Structural Design**
- ✓ **Problem Solving**
- ✓ **Team Challenges**

DURATION

120 minutes
60 minutes

PRICE
